ABSTRACT

Contained in this catalog is a complete listing of U.S. Environmental Protection Agency reports issued in the AP and APTD series and of selected reports in the EPA-R series. The AP group provides information of general interest in the field of air pollution control and is made available to the public through the Government Printing Office. The APTD series is issued to report technical data of interest to a limited readership and includes reports of work performed under contract to the Environmental Protection Agency. The EPA-R series contains reports issued by the EPA Office of Research and Monitoring and available from the National Technical Information Service together with the APTD series reports. Each entry indicates the series number, title of the publication, date, order number, and price. A subject index concludes the work. (BL)

This catalog contains a complete listing of the reports issued in the AP and APTD series and selected reports in the EPA-R series.

The AP group provides information of general interest in the field of air pollution control and is made available to the public through the Government Printing Office (GPO).

The APTD series is issued to report technical data of interest to a limited readership; these reports are sold by the National Technical Information Service (NTIS). The majority of publications following APTD 69-21 are reports of work performed under contract to the Environmental Protection Agency.

The EPA-R series contains reports issued by the EPA Office of Research and Monitoring; these reports are also sold by NTIS.

An index is provided to assist you in locating specific reports.

ORDERING INSTRUCTIONS

1. AP SERIES: If a price is given, a paper copy can be purchased only from the Government Printing Office using the GPO number. If no price is given, it is no longer for sale at GPO and a paper copy can be purchased from NTIS (EXCEPTION: AP-40 is currently under revision and is presently only available in microfiche format from NTIS). Specify the NTIS number when ordering from NTIS.

2. APTD AND EPA-R SERIES: Unless otherwise indicated, these reports are for sale at the National Technical Information Service using the NTIS number given. The prices listed are for paper copies. The absence of an NTIS number indicates that the report will be available from NTIS in the near future. Inquiries regarding these reports may be directed to the Air Pollution Technical Information Center.

NOTE: Any item having an NTIS number can be ordered from NTIS in microfiche at $.95 each. Payment must accompany all orders sent to GPO; NTIS will accept orders without payment in advance but will charge an additional 50¢ for each different title that is ordered in paper copy.

EPA-R reports have numbers such as EPA-R1-72-001. Due to space limitations these numbers have been abbreviated to R1-72-001 therefore users of this catalog must add EPA- in front of these numbers in any communications concerning these reports in order to avoid confusion.
